## My Instant Container Opener

### PROBLEM

People with limited to no mobility in one arm have a hard time opening containers independently.

### SOLUTION

A portable attachment to the armrest that serves to open containers with a simple twist of the wrist.

### REQUIREMENTS

Our solution 's main requirements were that it needed to be lightweight, portable, subtle, and durable.

### DESIGN

#### ADJUSTABLE

Strong velcro straps allow for easy attachment and removal

#### DURABLE

Hardened metal teeth grip firmly to any lid

#### VERSATILE

Dynamic opening allows for any container size
